No.

Do you believe you or any member of your immediate household is at higher risk?

Yes. I live with my sister and brother-in-law. [REDACTED] [REDACTED] Both medical condition places him at high risk for complications with Covid-19. [REDACTED]

3. Do you or anyone in your household currently have symptoms of illness, including fever, cough, shortness of breath, congestion, or respiratory problems?

Please answer yes or no. If yes, please provide details including the date the symptoms began and any medical treatment to date.

Yes. I have seasonal allergies which causes me to cough on occassion. I also have episodic hot flashes throughout the day which I believe is menopause.

4. To the best of your knowledge, have you been exposed to COVID-19?

Please answer yes or no. If yes, please explain.

No.

5. The Court will be implementing procedures to maintain physical distance and minimize potential exposure to COVID-19 in the courtroom. Even with these precautions, do you have **ANY** concerns related to COVID-19 that would affect your ability to pay attention and fully concentrate on the evidence in this case?

Please answer yes or no. If yes, please explain your concerns.

Yes. I would be more comfortable having a court appointed PPE issued that is uniform for all personnel. Cloth mask and lower grade mask may minimize but will not have the efficacy of the N95 mask. I would ask that we comply with the 6 feet distance between each person in the court room. As for the juror's break room, it is too small preCovid-19 for 14 people and with the new social distance rules, we would need to have a larger room to fit the jurors. particular on the day(s) we have to come up with a verdict. A N95 mask could help solve this issue.

6. *If you answered Yes to Question 5 above*, do you feel you can set aside your concerns regarding COVID-19 and focus your attention on listening to the evidence and deliberating with other jurors?

Please answer yes or no. *If you responded No to Question 5 above*, please skip ahead to Question 7.

I can focus and listen to the evidence and deliberation. But I will be concerned of exposure and risk of bringing something back home.

No. A high level summary of evidence would be helpful. I did take good notes which I would need to review to refresh my recollection.

1. Do you have any plans or obligations (including employment/academic/or childcare) that would conflict with your continued jury service between May 4, 2020 and May 15, 2020?

Please answer yes or no. If yes, explain what the conflict is and what days it potentially impacts:

Yes, it will conflict with a two day client audit/meeting scheduled on May 5-6 which is now being conducted via video conferencing due to COVID-19. This is one of my primary job responsibility within the organization and this meeting has been scheduled before the the identification of this pandemic.

2. The United States Centers for Disease Control and Prevention ("CDC") has said that older adults and people of any age who have serious underlying medical conditions may be at higher risk for more severe complications from the novel coronavirus, also known as COVID-19. Do you believe you or any member of your immediate household is at higher risk?

Please answer yes or no. If yes, please explain your concerns:

Yes I do have significant concerns primarily for my own safety and health, secondarily for my spouse regardless of our age (myself and spouse are in our healthy 50+) but subjecting my household to the unnecessary health risk is being irresponsible.

3. Do you or anyone in your household currently have symptoms of illness, including fever, cough, shortness of breath, congestion, or respiratory problems?

Please answer yes or no. If yes, please provide details including the date the symptoms began and any medical treatment to date.

Please answer yes or no. If yes, please explain your concerns.

Yes it is greatly concerning regardless of the physical distancing measures being put in place. Being exposed all day, for the designated trial dates with individuals who I do not know will be distracting as everyone has heightened awareness of symptoms of COVID-19. Coughing or sneezing will be distracting and uncomfortable during the course of the trial should anyone exhibit these symptoms. I am the one responsible for my own health and well-being.

6. *If you answered Yes to Question 5 above*, do you feel you can set aside your concerns regarding COVID-19 and focus your attention on listening to the evidence and deliberating with other jurors?

Please answer yes or no. *If you responded No to Question 5 above*, please skip ahead to Question 7.

If yes, please explain:

I have health concerns related to COVID-19 that would affect my ability to pay attention and fully concentrate on the evidence in this case at the end of May (Question 5): Yes No
If yes, please explain:

I would be very concerned if anyone in the jury room have any of the visble symptoms such as coughing, sneezing. Prior to COVID-19, I find myself veering away from people who are coughing and sneezing especially those who do not know proper etiquette.

There are additional reasons that I cannot render a fair and impartial verdict based on the evidence introduced at trial or cannot serve on this jury for the remainder of this trial if held at the end of May (Question 10)? Yes No

Joint Proposed Voir Dire Questions

Members of the jury, please carefully read each of the following questions numbered 1-12, and respond in the space provided.

The purpose of this questionnaire is to determine whether trial can resume safely and fairly on May 4, 2020. Please answer each question truthfully, even if you feel the question is repetitive of prior questions you have answered, and do not discuss the contents of your questionnaire. Please be assured that your personal medical information and personal identifying information will not be made public.

You are required to return the form via email by 5:00 p.m. on April 23, 2020.

1. Do you have any plans or obligations (including employment/academic/or childcare) that would conflict with your continued jury service between May 4, 2020 and May 15, 2020?

Please answer yes or no. If yes, explain what the conflict is and what days it potentially impacts:

Yes. I'm a registered nurse currently working remotely from home for the San Francisco Department of Public Health COVID19 response team in which I coordinate referrals and placement of covid-effected patients from health facilities to city-supported hotels for quarantine/isolation.

2. The United States Centers for Disease Control and Prevention ("CDC") has said that older adults and people of any age who have serious underlying medical conditions may be at higher risk for more severe complications from the novel coronavirus, also known as COVID-19. Do you believe you or any member of your immediate household is at higher risk?

Please answer yes or no. If yes, please explain your concerns:

I'm 69 years old with [REDACTED] Due to being at higher risk because of my age, and these conditions, I've been following stay-at-home guidelines for the past month.

3. Do you or anyone in your household currently have symptoms of illness, including fever, cough, shortness of breath, congestion, or respiratory problems?

Please answer yes or no. If yes, please provide details including the date the symptoms began and any medical treatment to date.

No

4. To the best of your knowledge, have you been exposed to COVID-19?

Please answer yes or no. If yes, please explain.

There is a possibility because my previous nursing job was working directly with patients in a DPH homeless program. But as of yet, I haven't been tested.

5. The Court will be implementing procedures to maintain physical distance and minimize potential exposure to COVID-19 in the courtroom. Even with these precautions, do you have **ANY** concerns related to COVID-19 that would affect your ability to pay attention and fully concentrate on the evidence in this case?

Please answer yes or no. If yes, please explain your concerns.

The honest answer is that I wouldn't know until I was actually in the courtroom or deliberation room. But I'd be very concerned about maintaining social distancing, especially since CDC research indicates that 6 feet of separation may not be enough to prevent exposure.

6. *If you answered Yes to Question 5 above*, do you feel you can set aside your concerns regarding COVID-19 and focus your attention on listening to the evidence and deliberating with other jurors?

Please answer yes or no. *If you responded No to Question 5 above*, please skip ahead to Question 7.

I'm not sure until I'm present in the courtroom or deliberation room.

7. Since we broke for the day on March 11, 2020, have you read, watched, or listened to any news reports or other accounts about the trial or anyone associated with it, including any online research?

Please answer yes or no. If yes, please explain what information you were exposed to and how.

No

8. Since we broke for the day on March 11, 2020, have you discussed the **substance** of this case with anyone, including your fellow jurors, members of your family, people involved in the trial or anyone else?

Please answer yes or no. If yes, please explain. Please note, you do not need to answer yes if you merely discussed scheduling or non-substantive issues related to the trial; for example, if you told your employer you might need to return to court on April 13.

No

9. Do you have a good memory of the testimony you heard during the first two days of trial? Would you find it helpful for the parties to give a brief summary of the evidence on March 10 and 11, 2020 before resuming the evidence portion of the trial?

Please answer yes or no. If no, please explain.

I think so, but a summary of the evidence would certainly be helpful

10. Are there any other reasons you cannot render a fair and impartial verdict based on the evidence introduced at trial or any other reasons you cannot serve on this jury for the remainder of this trial between May 4, 2020- May 15, 2020?

Please answer yes or no. If yes, please explain.

No; except for my work obligations as stated in question #1.

11. If the local shelter-in-place orders are extended further than the current end date, to the end of May (or thereabouts), how would that change your responses to questions 1, 5, and 10, if at all:

I have plans or obligations (including employment/academic/or childcare) that would conflict with my continued jury service at the end of May (Question 1): Yes No
If yes, please explain:

My work obligations with the SF Department of Public Health.

I have health concerns related to COVID-19 that would affect my ability to pay attention and fully concentrate on the evidence in this case at the end of May (Question 5): Yes No
If yes, please explain:

As I stated in Question 5: I wouldn't know until I was actually in the courtroom or deliberation room. But I'd be very concerned about maintaining social distancing, especially since CDC research indicates that 6 feet of separation may not be enough to prevent exposure.

:

There are additional reasons that I cannot render a fair and impartial verdict based on the evidence introduced at trial or cannot serve on this jury for the remainder of this trial if held at the end of May (Question 10)? Yes No
If yes, please explain:

12. Would you prefer to (please check one):

- Resume on May 4, regardless of whether shelter-in-place remains in effect or
- Resume after the shelter-in-place orders are lifted or eased, assuming that occurs by the end of May.
